

" Subject: Late Poster submission for Virtual ISCB 2020 open until June 5 "

Message:

" ISCB41 2020 Virtual Conference (41<sup>st</sup> conference of the International Society for Clinical Biostatistics, to be held August 23-27) **re-opens late submissions for Posters until June 5.**

Please see [www.iscb2020.info](http://www.iscb2020.info) for details of 1-page Abstract submission and registration.

Methodological studies and health/clinical applications in any of the areas of the Conference Topics (listed on the website) will be of interest.

**However, this offer is Not open to Authors who have previously submitted an Abstract (as the 1st Author) for ISCB 2020.**

By accepting additional Posters that will be displayed on the conference website and accessible to all participants, we offer an opportunity to present research results and participate in a major international conference to researchers and students in biostatistics, statistics, epidemiology, data science and related fields in a year where few such opportunities exist (because many conferences were cancelled).

The Authors will be notified about their Abstracts acceptance/rejection within 5 days of their submissions and by June 8 at the latest (earlier submissions will result in an earlier notification) and will **have to Register and pay the fee by June 15 to get reduced Early Bird Registration Fee.**

Please notice that **low Registration Fees (~ 110 Euro for Students, ~ 240 Euro for researchers) offer full access to all Conference Sessions and activities.**

Those researchers and students who do not submit an Abstract are also encouraged to register in order to join > 600 participants and profit from an exciting scientific program (Plenary talks by Miguel Hernan, Frank Harrell Jr. and Trevor Hastie, 12 Invited Sessions, > 200 Oral presentations).

Looking forward to welcome you for ISCB41

Krystyna Szafraniec, Chair, Local Organizing Committee (LOC), ISCB 2020

&

Michal Abrahamowicz, Chair, Scientific Programme Committee (SPC), ISCB 2020
