Weitere Bewerbungs- informationen/ Information for applicants	<p>The University Hospital of Tübingen is a leading center of German university medicine, treating approximately 75,000 inpatients and approximately 380,000 outpatients annually. The newly established Department of Population-Based Medicine at the Institute of Health Sciences, University of Tübingen, invites applications for a position as a</p> <p>Senior Postdoctoral Researcher in Population-Based Medicine (f/m/d)</p> <p>We are seeking an outstanding researcher engaged in public health-related research (epidemiology, medicine, or psychology) at a high international level. This research should be documented through publications in high-quality journals. The successful candidate is expected to develop an active research program in population-based medicine with a focus on behavioural factors, chronic conditions, mental health, and stress-related conditions. The candidate is also expected to play a key role in the development of the new department.</p> <p>The requirements of the position include the completion of a doctorate (PhD, MD, DSc.), at least one year of postdoc experience, excellent</p>

	<p>knowledge of English, international experience, and experience in working with population-based studies. Additional qualifications in health management, health economics, or digital (mental) health would be advantageous. We expect leadership skills, the ability to work in international and interdisciplinary teams, and enthusiasm in teaching. The candidate is expected to supervise students and research staff and to contribute to teaching in the new international M.Sc. program Population-Based Medicine & Health Care Leadership.</p> <p>Applicants should send a</p> <ul style="list-style-type: none"> - CV (including publication record, conference contributions, teaching experience, etc.) - Research statement of maximally 3 pages - Names and email addresses of three professional references (current or previous research supervisors) - Transcript of records - TOEFL scores or other evidence of English and/or German proficiency <p>Severely handicapped persons with equal qualifications are given preferential consideration. The University of Tübingen is anxious to increase its quota of female scientific staff, and therefore emphatically requests women to apply for this position. The Administration of the University Hospital is responsible for all employment matters. Personnel appointments will be made pursuant to the fundamental stipulations of the legal statutes for universities in Germany. Interview expenses are not covered.</p> <p>Please send your application exclusively by e-mail (PDF attachment), quoting the reference number 11000, to bewerbung.bsl@med.uni-tuebingen.de, where also informal inquiries can be addressed.</p>
